Update: (Link opens in new window) There are plenty of good pc game test sites out there, i have built and maintained 2 of them with customer support, new ooT games. pixel shader 4 is here. ChrisIP: LoggedQ:

Tastypie Exception: This endpoint must be available to public I use tastypie and i have a OneToOneField.

Django give me error : Exception Value: This endpoint must be available to public class

Migration(models.Model): created_at = models.DateTimeField(auto_now=True,

auto_now_add=True) How to make OneToOneField public? or migrate is not really connect to the model?

Thank for help. A: Here, try to put this ModelAdmin:

```
class MigrationAdmin(admin.ModelAdmin): def save_model(self, request, obj, form, change):
```

```
obj.created_at = datetime.datetime.now() obj.save()
```
